

### INTRODUCTION

BWPHB-11 is an optimum blend of alkalinity builder. Softening agent and synthetic sludge conditioner. BWPHB-11 is uniquely formulated. All in one liquid designed specifically for low hardness softened water and demineralized water.

### ADVANTAGES

1. Ready to use liquid
2. Prevents corrosion and removes deposits.
3. Raises PH of water substantially at low dosage.
4. Non- volatile and so can be used where steam comes in direct contact with food.
5. Reduces maintenance and energy costs.

### DOSAGE

Treatment dosage will vary with feed water quality and boiler water concentration limits. Generally a dosage of 25- 30 ppm on continuous basis is recommended for normal operating conditions.

### STORAGE AND HANDLING

Keep the container tightly closed away from direct heat & sunlight. Avoid contact with skin & eyes. If it comes in contact with skin or eyes flush with plenty of clean & cold water. If necessary, seek medical attention. Wear protective clothing safety goggles, hand gloves, shoes while handling the chemical.
